# Range Overview

A combined metal furniture direction for buyers who need engineered adjustable bed frames and outdoor lounge products with controlled fabrication, powder coating, KD packing, and repeat export supply.

**Care Adjustable**

**Residential Base**

**OEM Frame Kit**

**Pool Lounger**

**Resort Daybed**

**Slatted Lounger**

## Best-fit buyer routes

- Mattress brands and bedding retailers needing adjustable metal base frames
- Hospitality, dormitory, care, and serviced-apartment buyers needing durable bed structures
- Resort, hotel, villa, poolside, beach-club, and outdoor furniture importers
- OEM/private-label buyers looking for India-based metal fabrication and export packing

Built for repeat supply: metal tube frames, brackets, hinges, slats, sling frames, powder coating, KD packing, and controlled specifications.

# 01 Care-Grade Adjustable Bed Frame ADJUSTABLE BED FRAMES

Articulated steel frame with caster and rail direction

## Manufacturing Direction

- Powder-coated steel frame with visible head and foot articulation
- Suitable for care, recovery, hospitality, and institutional programs
- Reinforced linkage, side rails, caster options, and serviceable parts
- Can be developed as frame-only supply or OEM/private-label assembly

## 02 Residential Adjustable Base Frame<sup>ADJUSTABLE BED FRAMES</sup>

Metal support deck for mattress and bedroom programs

### Manufacturing Direction

- Clean rectangular steel base with raised backrest and slatted deck
- Good fit for mattress brands, retailers, and private-label bedding
- Motor brackets, legs, rail position, and slat direction can be customized
- KD frame design can improve carton size and container loading

## 03 Foldable Adjustable Frame

ADJUSTABLE BED FRAMES

Compact hinged structure for export and easy handling

### Manufacturing Direction

- Hinged steel support sections with exposed load-bearing geometry
- Designed for compact packing, assembly, and reverse-logistics efficiency
- Best for online, mattress accessory, and guest-bed supply programs
- Strength comes from bracing and load path, not simply thicker metal

## 04 Hospitality Adjustable Platform

ADJUSTABLE BED FRAMES

Heavy-use frame direction for rooms and dormitories

### Manufacturing Direction

- Low platform frame with reinforced side rails and center support
- Useful for hotel, serviced apartment, hostel, and dormitory buyers
- Repeatable frame geometry helps keep quality consistent across orders
- Can be supplied with buyer-specific legs, brackets, slats, and finish

## 05 Adjustable Mechanism Frame

ADJUSTABLE BED FRAMES

Steel linkage and actuator mounting structure

### Manufacturing Direction

- Mechanism-focused frame with brackets, pivot points, and linkage arms
- Useful for adjustable bed makers needing metal sub-assembly support
- Critical areas can be jig-controlled for alignment and repeat quality
- Frame and bracket kits can be developed from buyer drawings or samples

## 06 OEM Adjustable Frame Kit

ADJUSTABLE BED FRAMES

Knock-down parts kit for private-label assembly

### Manufacturing Direction

- Rails, legs, cross members, brackets, slats, and base hardware direction
- Designed for buyers who want supplier diversification and local assembly
- Common parts can reduce inventory complexity across multiple sizes
- Export packing can be optimized around carton size and part protection

## 07 Premium Poolside Lounger

BEACH / POOLSIDE CHAIRS

Adjustable metal chaise with mesh sling support

### Manufacturing Direction

- Powder-coated metal tube frame with adjustable backrest direction
- Suitable for hotels, villas, resorts, clubs, and retail outdoor ranges
- Mesh sling or fabric panel can be replaceable for maintenance programs
- Stacking and wheel options can be developed by buyer requirement

## 08 Stackable Beach Lounger

BEACH / POOLSIDE CHAIRS

Lightweight commercial lounger for beach and resort use

### Manufacturing Direction

- Curved tube frame direction with breathable outdoor fabric panel
- Good fit for beach clubs, resorts, rental fleets, and outdoor retail
- Stackable geometry can reduce storage and shipping volume
- Finish, fabric, feet, and hinge details can be localized by market

## 09 Resort Daybed Lounger

BEACH / POOLSIDE CHAIRS

Cushioned metal-frame poolside daybed

### Manufacturing Direction

- Premium square-tube metal frame with wheels and removable cushion option
- Good for resort, villa, club, pool-deck, and hospitality projects
- Metal frame can be common while cushion, fabric, and trim vary by buyer
- KD or semi-KD direction can improve export packing for bulky products

## 10 Folding Beach Chair

BEACH / POOLSIDE CHAIRS

Compact tube-frame chair for leisure and retail programs

### Manufacturing Direction

- Foldable metal tube frame with armrests and outdoor fabric support
- Useful for retail, beach rental, camping, resort, and seasonal programs
- Simple repeat geometry supports high-volume production and cost control
- A smart hinge and lock design matters more than making the tube thinner

## 11 Poolside Lounger Pair

BEACH / POOLSIDE CHAIRS

Coordinated outdoor lounge set for hospitality buyers

### Manufacturing Direction

- Pair-format lounge direction with matching side table possibility
- Strong for resort, hotel, villa, and outdoor furniture store ranges
- Shared frame parts can simplify production and replacement components
- Can be developed as OEM/private-label collection with buyer finishes

## 12 Commercial Slatted Lounger Frame BEACH / POOLSIDE CHAIRS

Durable tube and slat structure for high-use pool areas

### Manufacturing Direction

- Exposed metal slat and tube frame shows strong structural direction
- Good where buyers need durable outdoor use and easy cleaning
- Adjustable hinge and support rail can be jig-controlled for repeat quality
- Can be optimized for carton size, serviceability, and replacement parts

# Built Smarter For Repeat Supply

These products should not be made cheaper by simply reducing tube size. The better direction is clean load paths, fewer unnecessary welded parts, smarter KD modules, reliable hinge/bracket systems, optimized carton size, and finish systems matched to real use.

- Adjustable bed frame structures, mechanism kits, slatted decks, legs, and brackets
- Beach chairs, pool loungers, resort daybeds, sling frames, and commercial outdoor seating
- Tube-size and brace optimization for strength without dead weight
- KD packing and common-part design for container and inventory efficiency
- Powder-coated finish, buyer-specific fabric/cushion options, and controlled specifications
- Sample-led development before repeat container production
