Range Overview

A premium metal storage direction for buyers who need durable cupboards, lockers, and utility cabinets with repeatable manufacturing, controlled specifications, smart packing, and strong commercial-use construction.

Tall Cupboard

Modular Storage

Locker Unit

Low Sideboard

Utility Storage

Built for repeat supply: steel sheet bodies, tube reinforcement, lockable doors, ventilation options, powder coating, KD/semi-KD packing, and OEM/private-label control.

01 Premium Double-Door Cupboard

Lockable steel wardrobe and shelf storage

Manufacturing Direction

- Tall powder-coated steel cupboard with adjustable internal shelves
- Suitable for apartments, staff rooms, hostels, hotels, and offices
- Lockable handles, clean hinges, and controlled sheet-metal finish
- Can be developed in retail, project, or OEM/private-label formats

02 Modular Storage Wall Unit

Office, back-room, and accommodation storage system

Manufacturing Direction

- Combination of cupboards, drawers, open shelves, and side cabinets
- Useful where buyers need one coordinated storage family
- Common parts and repeat frame geometry help control production cost
- Finish, handle, shelf, and packing specifications can be customized

03 Multi-Door Locker Unit

Institutional, staff, school, gym, and hostel use

Manufacturing Direction

- Ventilated locker doors with lockable compartments for high-use sites
- Strong steel body direction for daily commercial handling
- Ideal for staff accommodation, educational, industrial, and rental use
- Can be supplied in different bay counts, heights, and color programs

04 Low Metal Sideboard Cabinet

Hospitality, office, and apartment storage

Manufacturing Direction

- Low-height cabinet direction for room storage and service areas
- Hinged or sliding-door formats depending on space and buyer needs
- Premium black and gold finish can support higher retail positioning
- KD or semi-KD design direction can improve carton and container loading

05 Heavy-Duty Utility Storage Unit

Project, warehouse, workshop, and institutional supply

Manufacturing Direction

- Wide storage cabinet with reinforced tubular guard and shelf sections
- Useful for operational buyers who need durability over decoration
- Fewer unnecessary welded parts can reduce weight without losing strength
- Designed for repeat export supply with controlled specs and packing

Built Smarter For Storage Supply

Storage furniture should not become cheaper only by reducing sheet thickness. The better direction is smarter frame geometry, fewer unnecessary parts, correct load paths, stronger door hardware, efficient carton sizing, and finish systems that survive daily use.

- Cupboards, lockers, sideboards, utility cabinets, and modular storage
- Sheet-metal and tube-frame optimization for strength without dead weight
- Ventilation, locks, handles, shelves, and door formats by buyer segment
- KD or semi-KD construction where it improves carton and container loading
- Powder-coated finish programs for clean commercial use
- Sample-led development before repeat export production
