Range Overview

A premium flat-top metal gazebo direction for buyers who need outdoor structures with controlled metal fabrication, powder-coated finish, modular construction, export packing, and project-ready customization.

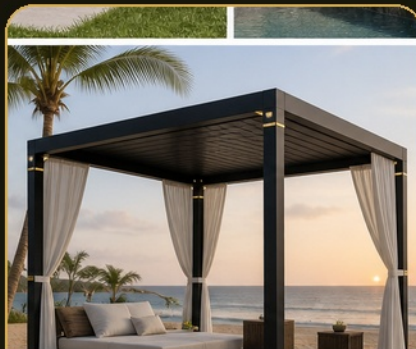

Flat Garden Pavilion

Louver Pergola

Flat Event Canopy

Flat Resort Cabana

Wide-Span Shelter

Built for repeat supply: tube posts, bolted joints, flat roof frames, braces, base plates, powder coating, KD packing, and buyer-specific outdoor specifications.

01 Flat-Top Garden Pavilion

Premium outdoor shade structure for villas and gardens

Manufacturing Direction

- Horizontal roof-frame direction with clean square-tube posts
- Flat slat or panel roof options for a modern architectural look
- Suitable for garden seating, villas, clubs, and premium retail
- Can be developed in bolt-together KD modules for export packing

02 Flat Louver Pergola

Flat-roof patio and terrace structure

Manufacturing Direction

- Clean rectangular steel-tube frame with flat louvered roof direction
- Good fit for villas, cafes, outdoor dining, and terrace projects
- Simple modular posts and beams can reduce welding and assembly issues
- Finish, roof spacing, lighting, and drainage details can be customized

03 Flat Commercial Outdoor Canopy

Restaurant, event, and hospitality shade system

Manufacturing Direction

- Large flat-roof metal canopy direction for outdoor dining and events
- Repeat bay geometry supports scalable project and container supply
- Bolt-together frames can simplify installation and future replacement
- Designed for buyers who need durability, consistency, and cost control

04 Flat-Top Resort Cabana

Poolside, lounge, and hospitality outdoor structure

Manufacturing Direction

- Premium flat-top metal frame direction with curtains and roof panels
- Good for resorts, hotels, private villas, clubs, and poolside projects
- Decorative trims can be localized while keeping the core frame common
- KD post and roof modules can support export packing and site assembly

05 Flat Wide-Span Shelter

Wide gazebo, carport, and utility shade structure

Manufacturing Direction

- Flat wide-span roof direction with reinforced posts and base plates
- Useful for patios, carports, institutional sites, and utility areas
- Fewer repeated frame modules can improve production and installation
- Best developed with buyer-specific wind, roof, and foundation standards

Built Smarter For Outdoor Supply

Flat-top outdoor structures should not become cheaper by simply reducing tube thickness. The better direction is cleaner load paths, fewer unnecessary welded parts, bolt-together modules, correct bracing, efficient cartons, and finish systems suited to real outdoor use.

- Flat-top garden pavilions, patio pergolas, cabanas, event canopies, and shelters
- Tube-size and brace optimization for strength without dead weight
- KD post, beam, flat roof, and base-plate modules for export efficiency
- Powder-coated finish programs for outdoor furniture categories
- Buyer-specific roof, drainage, anchor, and local-code requirements
- Sample-led development before repeat container production
